

The Australian designed and manufactured **Autoflo Integrated Goose-neck Wave On/Wave Off** Sensor Tap Lead Free is suitable for a range of hand-washing applications, particularly in public commercial areas that experience high traffic and therefore high usage, meaning conservation of water is of paramount importance. The 6-star WELS rating ensures hygienic bathroom environments for users, delivered economically and in an environmentally sensitive fashion.

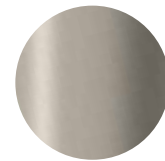

The robust construction and sleek design are complimented by a range of features ensuring consistent performance. The hygienic self flush performed every 24-72 hours and dual stage water filtering are just some of the features that set apart the **Autoflo Integrated Wave On/Wave Off** Sensor Tap.

CHROME

Mains 100-5160LF
Battery 100-5161LF

BRUSHED NICKEL

Mains 100-5158LF
Battery 100-5159LF
