

GNS-INTEGRATED WO-WO

ENGINEERED TO BE BETTER

MAINS/BATTERY POWER WAVE ON/WAVE OFF SENSOR TAP

Australian designed and manufactured **Autoflo Integrated Goose-neck Wave On/Wave Off Sensor Tap Lead Free** is suitable for a range of hand-washing applications, particularly in public commercial areas that experience high traffic and therefore high usage, meaning conservation of water is of paramount importance. The 6-star WELS rating ensures hygienic bathroom environments for users, delivered economically and in an environmentally sensitive fashion.

The robust construction and sleek design are complemented by a range of features ensuring consistent performance. The hygienic self-flush performed every 24-72 hours, dual stage water filtering are just some of what sets apart the **Autoflo Integrated Wave On/Wave Off Sensor Tap Lead Free** apart.

CHROME

Mains 100-5160LF
Battery 100-5161LF

BRUSHED NICKEL

Mains 100-5158LF
Battery 100-5159LF

FEATURES

- Simple wave-on activation
- Operation 240V mains or 6V battery
- Pre-set hands free run time of 10 seconds
- Long battery life of 3-4 years
- Self-flushing every 24-72 hours
